Pet MemorialTags™

An everlasting tribute, to your best friend.

"If having a soul means being able to feel love and loyalty and gratitude, then animals are better off than a lot of humans" ~ James Herriot

Pet- MemorialTags™ combine traditional methods of remembrance with digital code scanning to provide a personalised, multimedia experience that can be protected, preserved and shared, both now and in the future.

The key is a small Pet- MemorialTag which can be attached discreetly to a Headstone, Memorial Bench, perhaps a marker next to a tree or any other flat and clean surface. A unique two dimensional code on the Pet- MemorialTag can be read by a mobile phone, and the information displayed instantly on screen.

What information can I include in the memorial?

You can include as much or as little as you wish. If you have one or a thousand photographs of your beloved pet you can upload them all. You can link to video footage you may have. All and any precious moments that you have in multimedia format can be included.

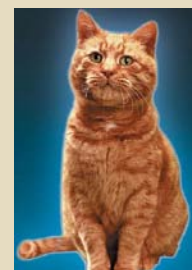

What does it cost?

A Pet-MemorialTag only costs £173.20, but remains online forever.

Can a human MemorialTag link to a Pet-MemorialTag?

Yes – Absolutely! We understand how important your pet is to you, they are members of the family too and had a huge impact on your lives and so we made sure that human or Pet MemorialTags can be linked and included in your family tree.
